EXPERIENCE

Pandai Education Sdn. Bhd. **Kuala Lumpur, Malaysia**
Quality Assurance Engineer, Internship September 2024 – February 2025

- Conducted 6 regression testing cycles for Android and iOS applications over a span of 4 months, successfully identifying and reporting critical bugs to maintain product stability.
- Monitored project milestones to maintain a 100% on-time release rate, adhering to the 10-day development timeline for each version.
- Partnered with developers and backend teams to systematically resolve over 30 user-reported bugs, directly enhancing application performance across Android and iOS platforms during the internship period.
- Coordinated efforts between engineering departments and product management to design and implement efficient testing protocols, reducing defect turnaround time by 20%.
- Authored and maintained 3 comprehensive QA documents, detailing project timelines, bug fix logs, and test case reports to enhance team alignment and streamline the testing process.

EDUCATION

University of Technology MARA (UITM), Jasin **Malacca, Malaysia**
Bachelor of Computer Science (Hons.) Netcentric Computing. Current CGPA: 3.95 March 2025 - Present

University of Technology MARA (UITM), Raub **Pahang, Malaysia**
